Ambulance Department

Denton Township Emergency Medical (EMS) provides the highest level of emergency medical care to the community with two Advance Life Support (ALS) ambulances staffed 24 hours a day, 365 days a year. The ambulance service provides local employment for a staff of 7 full-time and 28 part-time employees. The staff consists of: 20 paramedics, 16 EMT's and one Chaplain.

Denton Township EMS has a large, modern training facility for Medical First Responders, EMT's and Paramedics as well as offering community classes in First Aid, babysitting and CPR. The facility is also used for meetings by local groups, such as Boy Scouts and Victims Services, when available.

Our primary focus is always to provide coverage, protection and emergency care in our community. However, there are often times when a patient will need to be transported via ambulance from one hospital to another. If an ambulance transport is necessary, due to the patient's condition, Denton EMS will provide transport (if available) from one hospital to another, up to a distance of 100 miles.

If you need an ambulance at home or in the community, call 911. If you or someone you know has to be transferred from one of the local hospitals to another facility, you must request that the hospital call Denton Township EMS. Denton Township EMS billing is contracted through Accumed Billing.

For Ambulance Billing questions, please call Accumed at 1-800-926-6985.

The phone number is also located at the top of your bill. Taxpayers in Denton Township automatically receive a reduction of \$100.00 off the fee, if they are transported in a Denton Township Ambulance. There is no maximum to the number of times that this reduction will be applied. Please be aware, that you may be responsible for a deductible through your insurance for an ambulance transport, this is from your insurance company and is still your responsibility.

In an emergency, always dial 911
